BLUEcloud Mobile²

Our Next Generation App

Today's Agenda

- Overview of new development
- Admin & app overview
- New features in BCM2
- Getting involved

New Development

The future is bright!

The BLUEcloud Mobile2 is:

- Built on modern technology & administered in BC Central
- Native to iOS and Android & designed with your patrons in mind
- Feature rich – we'll deliver what you've been asking for

Let's look at some prototypes...

Built on Modern Technology

Manage everything in BLUEcloud Central

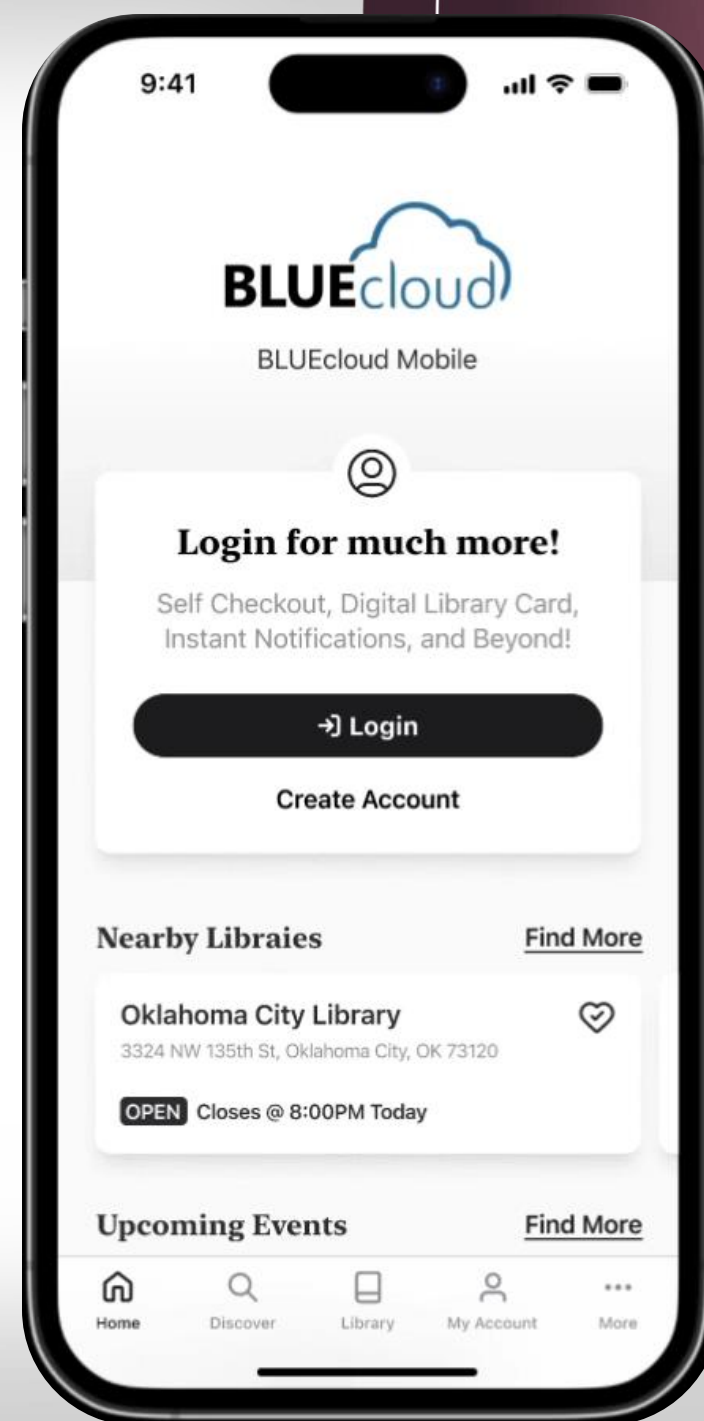

We're building new *shared* services that leverage the ILS, ILWS – so that your patrons have the same experience in BC Mobile and BC Discovery

Native Applications

Looks and feels like apps your patrons use everyday

We're able to leverage a well-known tech stack on Android and iOS – ensuring long term support

This leads to faster, ongoing feature releases
