“If the pandemic has proved anything, it’s that access to digital information... is so important to democracy, freedom of information, and education. [Digital inclusion] programs should be at the forefront of every municipality, library, or educational institution.”

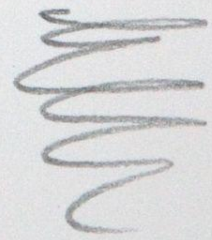

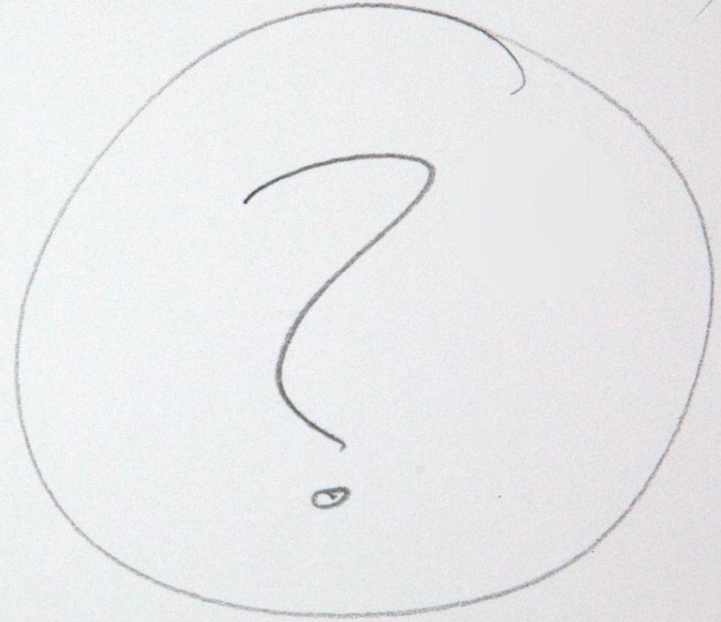

The Digital Equity Act

What's coming from the Digital Equity Act

Three Actionable Ideas

Find Your Teammates

Defeat Fear

A first-person perspective shot of someone standing on a narrow wooden plank bridge over a body of water. The person's feet, wearing blue sneakers and white socks, are visible at the bottom of the frame. The bridge is made of weathered wooden planks and is flanked by wooden railings. The water below is dark and slightly rippled. The overall scene is dimly lit, creating a sense of challenge and focus.
